

## Overview of WAMEX Search

Western Australian Mineral Exploration (WAMEX) is a mineral exploration database storing over 120,000 reports detailing prior exploration in Western Australia. Over 105,000 of these reports and related raw data, such as drilling data, geochemistry results and 3D models, are available for the public to download.

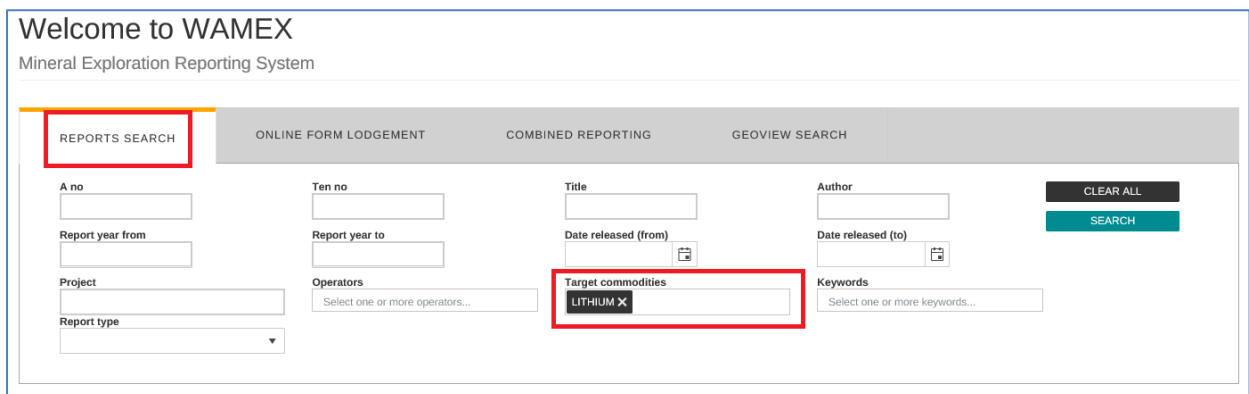

## How to use WAMEX Search

### Overview

#### Step 1 Reports Search

Search the Mineral Exploration Reports database using the **search form on the homepage**, or by selecting a search category from the **search dropdown** in the main menu.

- Click on the “Reports Search” tab and you are presented with several fields from which you can search on. In the example below we are searching on a Target Commodity of “Lithium”.
- Once you have completed your search criteria click on the *Search* to return a list of results.
